The heifers are Connieland Beauty 14th, right, and Connieland Starlight 2nd, left, both by Upper-mill Lochter. They are the Bivin kind.

37 choice lots from the strong Connieland Herd, owned by Ralph W. Bivin, Waverly, Illinois.

5 top females from the equally strong Lakeside Herd, owned by Ben W. Lake, Athens, Illinois.

SALE MANAGER—Hal Longley, 16 S. Locust St., Aurora, Illinois.

The three smooth heifers pictured are daughters of the former Bivin sire, Leveldale Forecaster. Steady progress has been made by retaining this kind.

Welcome to Connieland . . .

The Connieland herd began with a red Shorthorn heifer calf—my original 4-H club project, more years ago than I sometimes care to admit. Through eleven years of 4-H, the depression, and later higher times our Shorthorns have been a pleasure and profit. It is an enterprise that has absorbed us as a family.

Nature makes it inevitable that we part with cattle when numbers exceed farm capacity. We must cut our herd in half, so we are dividing it right down the middle—females of every age category. We are dividing the quality, also. The cattle we are selling are as good as those we are keeping.

This is our first sale and we are pleased to have Ben Lake associated with us. We hope to be able to have more in the future. We intend always to own Shorthorns. We look forward to your visit.

RALPH W. BIVIN

Connieland Pauline 3d and Maniva Augusta with Colleen and Bonigail Bivin. The former is by Divide Waverly, the latter by Levelda's Dauntless. Maniva Augusta was the grand champion Shorthorn 4-H heifer in 1952 and 1953 at the Illinois State Fair.

Dividing the Good Ones With the Public . .

Ralph Bivin began his Shorthorn career at the age of six . . . way back in 1914. That was the year he traded his 4-H Shorthorn steer for a red Shorthorn heifer calf. He has been a breed booster and breed promoter ever since. He has never traded numbers for quality . . . he has always been willing to invest liberally for the best herd bulls and replacement females.

Ralph has not sold many heifers in recent years. With abundant calf crops of 1951, 1952 and 1953 there are about twice as many females as the farm would normally hold. He is dividing his herd with the public. Half of the females of all ages in this strong herd sell. He is splitting the quality right down the middle . . . the cattle he is selling are as good as the ones he is keeping.

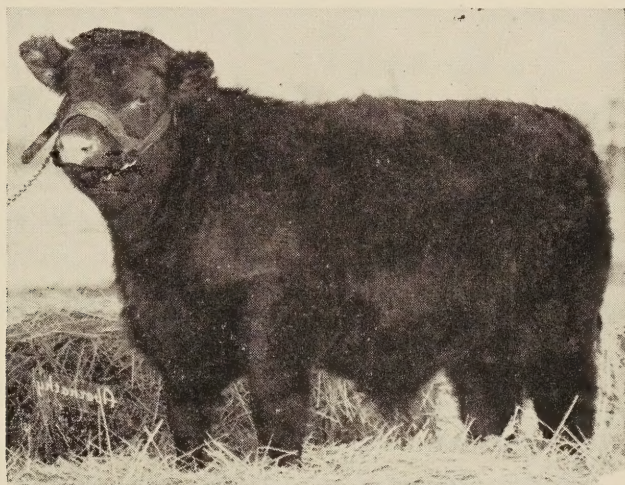

Add five top females from the excellent Ben Lake herd, one of the breed's most uniform and best, and you have an offering that will be pleasing to the most critical. I am very glad to recommend these cattle as well as the men who are selling them.

—HAL LONGLEY
of The Shorthorn World.

FORMER HERD BULLS

Divide Waverly. He stood second in a class of 33 senior bull calves at the 1949 International. He weighed over 900 pounds at a year old and still was short-legged, smooth and thick. An ideal type bull that reproduced in kind. He was one of those rare items, a breeding bull. We had the misfortune to lose him at three years of age. Four sons and seven daughters sell. These are the last we will ever offer.

Leveldale Forecaster did a grand job in the Connieland herd. You will find his name in many of the pedigrees. Sired by Goldfinder's Majesty, he was out of one of the breed's most famous cows, Taana Rosewood 4th, only cow ever to produce International grand champions of both sexes.

Ralph Bivin and Ben Lake have followed a program of buying herd bulls together. The \$5,150 Marellbar Preformer, the \$2,700 Westmont Mandarin, Uppermill Lochter (purchased privately) and the \$1,150 Edellyn Senator Mercury were all bought in partnership.

Four sweet females bred at Connieland. The heifer on the left, Connieland Starlight by Glassingall Research is the dam of Lot 11. The next heifer is Connieland Pauline 2nd and she will sell in this auction as Lot 36. Next two are Connieland Beauty 14th and Connieland Victoria, both by Uppermill Lochter.

UPPERMILL LOCHTER

Uppermill Lochter, bred by James Durno and imported-in-dam from Scotland, was the first bull owned in partnership by Ben W. Lake and Ralph W. Bivin and proved to be a wonderful sire. Unfortunately, he died after only a few years of service and a truly great bull was lost to the breed. He was the son of Comet by Coldoch Sensation and his dam was an excellent daughter of Calrossie Sweepstake. One of the first calves was the great heifer Lakeside Clipper that won reserve championship at the 1948 Illinois State Fair. Three of his daughters will sell in this sale and several of the choicest animals are out of dams sired by him.

Edellyn Senator Mercury. Sire, Edellyn Twofold Mercury. Dam, the International reserve champion female, Edellyn Dorothy 21st.

Divide Miriam 21st—This is the oldest cow in the sale but she has a fine record with some years to go. We purchased her from Wharton Allen in 1947 with a baby heifer calf that later sold to Glen Mangold, Auburn, Illinois. Another of her heifers topped the Sangamon District Sale going to C. W. Hardman, Spencer, West Virginia. A bull went to Weber Bros., Morrisonville, Illinois, and the three calves brought us a total of \$2,000. We still have two of her heifers in the herd and the old cow will calve again to the service of Westmont Mandarin in early December. Isn't this a pretty good record?

Four cows at Connieland. The second from the left, Divide Miriam 21st, sells as lot 27. The third cow is the grandmother of Connieland Clipper 3rd, lot 26. Connieland Beauty 10th, extreme right, is the mother of lot 2, Connieland Mandarin 6th.

The Consignment From LAKE SIDE

Ben Lake is one of the best cattlemen in Illinois and one of the most discerning and critical of his own productions. His uniform herd traces to just a few top foundation females. It is the kind of a herd most midwestern farmers dream of owning. Lakeside and Connieland share herd bulls. The five Lakeside females will be an attraction and credit to this sale.

Standard Guarantee

OF

AMERICAN SHORTHORN BREEDERS

ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or country into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bangs Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.

Twenty Club Calves Sell at 12 noon

Some were produced in the Ralph Bivin and Ben Lake herds and others come from good herds maintained by our neighbors.

Bonigail Bivin with her steer "Mike", a winner in 4-H competition at the 1952 International. This steer later was exhibited by the Kerns Cattle Co., Ocala, Florida, to the grand championship over all breeds at the Southeastern Fat Stock Show in Ocala.

It is with some regret that we are parting with about one-half our cattle. The Connieland herd was started quite some years ago, the two principals being a small boy and a very small red purebred Shorthorn heifer calf. The boy and heifer belonged to the first 4-H Club ever formed. Eleven years in 4-H, a depression, some high times, new members joined the firm. Now we number four, one a 4-H and another soon will be. We have some fine heifers suitable for Junior Club projects. We have a standing offer that any boy or girl purchasing a heifer or cow from us may have a free breeding privilege to one of our herd bulls provided the female is returned healthy and with clean health chart for service. Also, we are going to sell some mighty fine steer calves. Boys and girls, we want you to visit us November 10. We will do our best to help you any way we can. Bring Daddy and Mother. Short-horns have been good to us and we feel they will be good to you.
